

FIGURE 2.3 SUBNATIONAL INEQUALITY OF CHILD STUNTING

Source: Authors. Based on surveys included in UNICEF/WHO/World Bank (2019), WHO (2019a), UNICEF (2019), and MEASURE DHS (2019) from 2014–2018. Countries included are those with subnational stunting data available for 2014–2018. If more than one survey has been completed for a country during this period, that with the most recent subnational values is used. Note: The number in parentheses following each country name indicates the number of subnational units into which the country was divided for the sake of the survey, which can influence the degree of disparity that is revealed. All stunting values in this figure are taken directly from original survey reports. The national averages may vary slightly from those used for GHI calculations, which in some cases underwent additional analysis before inclusion in UNICEF/WHO/World Bank (2019) and WHO (2019a).
