In the 2023 Global Hunger Index, Bosnia & Herzegovina is one of 20 countries with a low GHI score of less than 5. These countries are not assigned individual ranks, but rather are collectively ranked 1–20 out of 125 countries.

GHI Score Trend for Bosnia & Herzegovina

ABOUT THE GLOBAL HUNGER INDEX

The Global Hunger Index is a peer-reviewed annual report, jointly published by Concern Worldwide and Welthungerhilfe, designed to comprehensively measure and track hunger at the global, regional, and country levels. GHI scores are calculated each year to assess progress and setbacks in combating hunger. The GHI is designed to raise awareness and understanding of the struggle against hunger, provide a way to compare levels of hunger between countries and regions, and call attention to those areas of the world where hunger levels are highest and where the need for additional efforts to eliminate hunger is greatest. This country profile is based on data and information from the 2023 Global Hunger Index.
